

# Application Guidance

Political Art

To Make Change

Now

ARTCRY

## To Get Funding Your Project Must:

### 1 - Have a clear political goal

Political for us means that the work has a specific aim to make change in our society and/or get people involved in our democracy.

### 2 - Happen for free in a public space

Where and how you choose to put your work on needs to clearly connect with the people you want it to reach.

### 3 - Need to happen now (in next 30 days)

We respond to applications in 7 days because we want to support work responding to political events happening now.

To be funded you will need to show us that your work needs to happen now in order to make it's point.

## We value work that:

1 - Starts a conversation

2 - Makes audiences think more deeply

3 - Startles people with a new point of view

4 - Wants to make an impact

## 5 - Respects difference

## 6 - Has a spirit of openness and accessibility at the core.

We will think about how your project addresses barriers to audiences experiencing or taking part in the work. For example how will D/deaf or disabled people engage with your project.

## 7 - Is representative.

We will look at how lived experience of the issue your work addresses is embedded in the project. Is it reflected in the project content, the team who make it and the ways audiences experience it?

## Other useful things to know:

Projects must be focused on impacting UK audiences. The artist does not need to be a UK resident.

For digital projects we ask 'what is the digital equivalent of taking work onto the streets?' We only support digital projects if you can show you'll reach beyond your current networks and channels.

You can apply at any time, there is no deadline

All work must be legal. It is the applicant's responsibility to obtain all permission needed to complete the project.

If there is something you need extra support on in your project please include that in your application.

Our maximum grant is **£2,500** (including VAT)

There is no minimum amount.
